1. In response to the DDCI's request, the DCID 1/2 Committee and the DCI Collection Committees have reviewed the information requirements of current policy interest and have identified existing activities and planned actions that are likely to result in improved collection against NIT-related areas of concern. The results of these reviews are enclosed. [REDACTED]

2. NITs constitute a key guidance document for establishing priorities and managing collection. I believe that information gaps relating to them have been well documented by the DCID 1/2 and Collection Committees. [REDACTED]
